

LITHPLEX BLUE GREASE EP₂

Code: 8120

Date: 03-05-2018

DESCRIPTION

LITHPLEX BLUE GREASE EP₂ is a premium lithium complex lubricating grease containing a tackiness agent. This universal lithium complex grease has a high dropping point in excess of 250°C, which ensures retention where high temperatures are encountered. It offers significant advantages over conventional soap and clay-based greases in terms of shear stability, thermal stability, water resistance and pumpability.

SUMMARY OF BENEFITS

LITHPLEX BLUE GREASE EP₂ has been formulated with a special additive package which ensures high film strength and provides extreme pressure (EP) and anti-wear properties. The high quality virgin base fluids provide excellent natural oxidation inhibition. This combined with effective anti-oxidants as well as corrosion inhibitors provide extra stability under storage and extreme service conditions.
